Re: Kickoff Meeting for the American Cement Community Advisory Panel (CAP)

Neighbors:

GCC Rio Grande and American Cement would like to invite you to participate in the American Cement Community Advisory Panel ("CAP"). The purpose of the CAP is for interested citizens and American Cement to work together to ensure that ongoing operations at the facility are accomplished in an environmentally-sensitive manner.

The location of the initial kickoff meeting is the Los Griegos Community Center, located on 1231 Candelaria Road NW, on Wednesday, December 16, 2009. Map, directions, and contact phone number is found below.

We are particularly encouraging residents of the immediate neighborhood in the blocks adjacent (to the west) to the facility to participate in this group. We are also inviting one representative member from certain community neighborhood associations near the facility to attend. Required registration is from 6:00 PM till 6:30 PM. Please bring Return Receipt Envelope and this letter for admission.

The meeting will start promptly at 6:30 PM and is anticipated to last 1 ½ hours.

Please do not hesitate to call me if you have any questions.

Sincerely,

A handwritten signature in cursive script that reads 'José Madera'.
